

**PERMISSION TO WORK WITHOUT OWNER PRESENT**

Campbell Homes requires that a homeowner or homeowner's representative over the age of eighteen years old be present while any work is performed on a Warranty Claim inside the home. Campbell Homes understands that it is sometimes difficult for our homeowners to meet this requirement and be available every time work must be performed on a Warranty Claim.

The Owner's signature below will allow a Campbell Homes' representative to work or supervise work being done inside your home by Campbell Homes subcontractors without the Owner being present. At all times a Campbell Homes representative will be on site whenever any task is being performed and then follow up with the owner on the details of what was completed. The Campbell Homes representative will make sure the home is locked and work areas are clean after the work is complete.

The Owner's signature below acknowledges that Campbell Homes has permission to work on a Warranty Claim under the conditions noted above.
