THE MONARCH | Build Complete in late December. Home for the holidays and perfect for guests and entertaining! You'll love the great room with fireplace, spacious kitchen with built-in wall oven/microwave, and formal, yet informal, dining room. The other feature home buyers love about this plan is 3 bedrooms on the main level! Add to that, two more bedrooms in the finished basement, and you have one amazing home. The basement also features 9' foundation walls, a wet bar, and fireplace, giving it a great space for entertaining or cozy movie nights. The 2-car oversized garage is complemented by an attached 48' deep RV garage for toys, a workshop or an RV! This home is a great balance of space, luxury and affordability.
