Everything you could want and more! The spacious gourmet kitchen and open plan makes entertaining an absolute joy, especially with access to the patio to bring the outdoors in on warm days. A little too chilly? The stone fireplace adds comforting warmth and creates an inviting mood. Need two bedrooms with attached baths? No problem! Even better, they are both on the main level - the primary suite with 67"x32"soaking tub and separate shower, and another bedroom with attached bath that connects with a study/den. The finished basement has 9' foundation walls, a rec room with wet bar and a theater room, perfect for movie nights or get-togethers. Let's not forget the 46' RV garage, in addition to the 2-car garage. Plenty of space for your needs. *NOTE: Pictures are of the plan and not this particular home.* MLS #9866015
