Garage

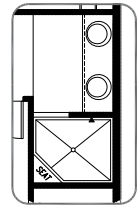

Light and bright with an open plan, this home boasts a spacious kitchen with a walk-in pantry, 42" upper cabinets, a 30" double oven gas range, and more. The expanded kitchen island is a perfect spot for prep space or quick meals. The dining and living areas are open to the kitchen and provide a relaxed entertaining space. The luxury vinyl plank flooring throughout the main living area is both beautiful and durable. The dining area has a slider that provides convenient access to the 20x12 patio with pre-installed gas line that makes grilling a breeze! The laundry room is also on the main level as well as a half-bath. On the upper level there is a spacious loft, the primary suite with custom shower, and two more bedrooms with a full bath. Two additional bedrooms and full bath are in the finished basement, as well as a large rec room ideal for game nights, and an unfinished storage area. The 3-car garage keeps vehicles protected and has space for tools and toys, too. This home includes air conditioning and other wonderful features as well. *The Orion Plan. Photos are of the plan and not the specific home.*
